

The Central South Regional Stroke Network Presents:

# Provincial Stroke Rounds

**Dr. Maureen Markle-Reid, RN, PhD, FCAHS**

Professor Emerita School of Nursing, McMaster University

**Eileen Britt, Regional Stroke Rehabilitation and**

Community Coordinator, Central South Regional Stroke Network

**David Dayler, Patient Partner**

## Optimizing transitions for older adults with stroke to support successful community reintegration and life after stroke

**Wednesday March 1, 2023, 0800-0900h EST**

**Objectives: At the end of this presentation, participants will:**

1. Learn about the effectiveness of the Transitional Care Stroke Intervention (TCSI) as a strategy for improving the quality and experience of hospital-to-home transitions for persons with stroke and their care partners.
2. Learn about the barriers and facilitators to the implementation of the TCSI in two Central South sites.
3. Discuss how the results of the TCSI study can be used to improve transitions and advance stroke recovery, self-management, and community reintegration for persons with stroke and their care partners.
4. Discuss the implications of the results for implementation and scale-up of the TCSI in other provincial regions.
